Available May - August 2025.

## EDUCATION

### Rochester Institute of Technology, Rochester, NY

Expected May 2026

GPA: 3.82

- BS in Game Design and Development, BS in English; Media and Literature, Film Studies Minor
- Dean's List: Fall 2022 - Fall 2024

### Relevant Coursework:

Game Development and Algorithmic Programming I & II (C#, OOP), Experience Design Games & Media (UX Design and Implementation, Axure RP), Game Design and Development II (Agile/Scrum Methodology), Rich Media Web Development I (Webpack, Firebase, Bulma, React, TypeScript, Node.js), Data Structures and Algorithms for Games & Simulations I & II, Intro to Database and Database Modeling (SQL, normalization, data modeling, relational models)

## SKILLS

Languages: C#, C++, JavaScript, TypeScript, HTML, CSS, SQL, ReactJS, Python

Tools: GitHub, Git, Firebase, Webpack, Axure RP, Bulma,

## PROJECTS

### Talk To Me Softly Under a Bridge on Intersection 85

January 2025 - Present

C#, Unity 6, Blender, Twine

- Developing a visual novel based branching dialogue game about a conversation with a stranger under a bridge
- Implemented a Twine-to-game pipeline; utilizing dialogue parsing for converting Twine's narrative structures into an interactive branching dialogue system in Unity

### WaniKani Japanese Dictionary

December 2024

JavaScript, TypeScript, Webpack, Bulma

[people.rit.edu/dg8516/330/gao-d-h3-refactor/](https://people.rit.edu/dg8516/330/gao-d-h3-refactor/)

- Developed a searchable dictionary using an API, pulling data from their database to provide an accessible word list
- Refactored the project into TypeScript for improved type safety and maintainability
- Utilized Webpack for efficient module bundling and optimized performance
- Styled the application with Bulma CSS, creating a responsive and visually appealing user interface

### DanceX4

November 2024

JavaScript, Canvas API, Web Audio API

[github.com/somedayvid/Dance-Dance-Dancedance](https://github.com/somedayvid/Dance-Dance-Dancedance)

- Developed a web-based rhythm game using the Canvas API for dynamic visuals and the Web Audio API for interactive audio
- Optimized the game to use audio frequency data for generating notes, streamlining the process of adding new songs and enhancing scalability
- Implemented real-time note tracking and scoring systems, synchronizing gameplay mechanics with user inputs and musical timing

### Shattered

Aug 2024 - Dec 2024

Blender, C#

- Collaborated in a team of 4 students to develop our game using Scrum methodology
- Participated in sprint planning, weekly stand-ups, and retrospective meetings to manage tasks and ensure timely deliverables
- Drove the artistic direction of our game by creating and texturing 3D models using Blender
- Delivered a functional and polished minimum viable product within 6 sprints over the course of 3 months

## WORK EXPERIENCE

### STEM Instructor

Jul 2024 - Aug 2024

Lavner Education, Manhattan, NY

- Educated students on game design principles in Gamemaker while tailoring lessons to diverse learning styles
- Communicated with the team to ensure the workday ran smoothly and students would be supported in the best way possible
